SUMMARY

Junior Web Developer with 2+ years of experience building full-stack applications using the MERN stack and Next.js. Skilled in developing clean, responsive, and user-friendly interfaces, integrating RESTful APIs, managing application state, and implementing authentication and database design. Have completed multiple projects in MERN and Next.js, many of which are available on GitHub and showcased live on my portfolio. Passionate about writing maintainable code and continuously learning new technologies to enhance development efficiency. A dependable team player committed to delivering high-quality solutions under tight deadlines.

WORK EXPERIENCE

Nexskill, Arfa Tower, Lahore

May 2023 – Jan 2024

- Completed an intensive 6-month hands-on training program focused on building full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Gained practical experience in building responsive UIs with Tailwind CSS and integrating RESTful APIs.
- Developed multiple real-world projects, some of which are showcased on GitHub and my portfolio.

Switch Enterprises – Truck Dispatch Company, Lahore

June 2024 – September 2024

- Worked in a high-paced environment managing customer sales calls for US-based clients in the trucking and logistics sector.
- Generated leads, pitched dispatch services, and maintained client relationships.
- Developed excellent communication and sales skills through real-time interactions and negotiation.
